1. Applicant's election without traverse of the invention of group 1, claims 1-21 in the reply filed on Dec. 22, 2005 is acknowledged.
2. The restriction requirement is made final.
3. Claims 22-33 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on Dec. 22, 2005.
4. Claims 1-21 are objected to under 37 CFR 1.75(a) for not particularly pointing out and distinctly claiming the subject matter which applicant regards as his invention.

In claim 1, line 3 to claim what is intended should be replaced with - - - fluid-mounted on the stator - - -. Claim 16, lines 3-5 should be replaced with - - - central axis of a shaft of the electric motor. - - - in order to distinctly claim the invention. If the other alternative is desired to be claimed it should be presented as an additional dependent claim. In claim 19, line 3 " the deformation of the stop faces " should be replaced with - - - deformation of stop faces - - - because of lack of proper antecedent.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references show systems for monitoring relative position between stator and rotors. However neither they nor any other prior art of record showed or would have made obvious a measuring method on an electric motor with a rotor and a stator for determining the fly height and/or axial play, the rotor being mounted fluid-mounted on the stator, where the electric motor is operated at a defined measuring speed and thereafter relative axial position between the rotor and stator at

two stop positions is measured as set forth in combination with other steps as in claim 1.

6. This application is in condition for allowance except for the following formal matters: Claims 1, 16 and 19 should be amended as suggested in paragraph 4 above and nonelected claims 22-33 should be cancelled.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
